

Amendments to the Specification

Please replace the sentence beginning at page 8, line 8, with the following amended sentence:

This area of the *arcatus tendinus fascia pelvis* is then opened toward the ~~obstructed~~ obturator foramen, so as to enable the introduction of a finger behind the obturator muscle.

Please replace the sentence beginning at page 8, line 17, with the following amended sentence:

This area of the *arcatus tendinus fascia pelvis* is then opened toward the ~~obstructed~~ obturator foramen, so as to enable the introduction of a finger behind the obturator muscle.

Please replace the sentence beginning at page 8, line 21, with the following amended sentence:

Once secured, the perforator guide is removed, thereby providing a traction on the anterior suspension strap that is then introduced through the ~~obstructed~~ obturator foramen.

Please replace the paragraph beginning at page 9, line 9, with the following amended paragraph:

According to an alternative implant, the middle suspension straps 5 may also be implanted through a corresponding ~~obstructed~~ obturator foramen, in its lower posterior part opposite to the ischium.
